

# — DentAcetic & DenTees —

*Practical Solutions for Oral Pet Hygiene Care!*

## DenTees Chews & Stars

The first and only patent protected limited antigen treat to provide all of these benefits in one nutritious, enjoyable chew:

- Irresistible taste
- Odofactants neutralize stomach odors and freshen breath
- Abrasive action and patented ingredients, HMP and Acetic Acid, help decrease buildup of dental plaque and formation of tartar, physically removing both
- Helps brighten teeth
- No beef or beef by-products
- No preservatives, artificial flavors or colors
- Created by a board-certified veterinary dentist
- Improves digestibility
- Limited antigen for allergic dogs

## DentAcetic Gel & Wipes

- Easy to use, a client convenience favorite
- Excellent cleaning & deodorizing features
- Helps brighten teeth
- Helps remove and prevent plaque
- Clove provides analgesic effects
