

Convenient Wet Wipes

From DermaPet, the Market Leader in Wet Wipe Technology and Otology

MalAcetic® Wet Wipes/Dry Bath

2% acetic acid, 2% boric acid

MalAcetic Otic in wipe form! The anti-fungal and antimicrobial properties of the wipes are necessary in the management of folds: perinasal, focal, perivulvar, **intertrigo-skin folds, face, neck, anal, vulvar and feet**. Excellent for anal sac expression, and quick cleaning of areas that need regular application such as ears, tear stains, muddy feet, face and chin.

MalAcetic Wipes are available in a 25 ct. jar, Clinic Size/Strength 100 ct. jar and NEW 25 ct. Brick Pack.

MalAcetic® HC Wipes

1% hydrocortisone, 1% acetic acid, 1% boric acid

For sensitive inflamed skin and ear lesions. An antimicrobial, anti-fungal, anti-inflammatory wipe.

MalAcetic® HC Wipes are available in a 25 ct. jar.

DentAcetic® Natural Dental Wipes

A patented acetic acid tooth and gum wipe with sodium hexametaphosphate and oil of clove (for analgesia). Multifunctional, degreasing, brightens teeth, and protects teeth and gums. **DentAcetic® Wipes are available in a 25 ct. jar.**

Mal-A-Ket Wipes

1% ketoconazole, 2% chlorhexidine, 2% acetic acid

A unique, pleasant smelling, anti-fungal, antibacterial, deodorizing, degreasing wipe. Acetic acid (AA) potentiates and stabilizes the ketoconazole. AA has primary antimicrobial, anti-fungal properties, as well as excellent degreasing, cleansing and coat conditioning qualities. Ketoconazole has anti-fungal properties. Chlorhexidine has potent antimicrobial functions: combined with AA, it has a wider antibacterial activity against gram-negative and gram-positive organisms. **Mal-A-Ket Wipes are available in a 50 ct. jar.**
